RE: Walter May

To Whom It May Concern:

Mr. May has atypical facial pain which does not respond to medication. The only treatment which has helped him in the past is craniosacral therapy. Mr. May is on home arrest because of criminal charges against him. He should be allowed to go to these treatments as an outpatient. These treatments are a matter of medical necessity.

Sincerely yours,

Michael R. Sotell, M.D.

Re: Walter May
DOB: 2/24/44

To Whom It May Concern,

Walter was a patient of Lorna Kerbel, PT, CST and Pam McCormack, NCTMB, CST in 2003-4 for treatment of trigeminal neuralgia and whiplash. He responded very well to Cranio Sacral Therapy and his pain decreased enough to allow him to travel.

Walter, who is currently on home arrest because of criminal charges against him, is experiencing recurrence of significant trigeminal nerve pain. He would benefit from weekly treatment for 12 weeks with a re-evaluation of his needs at that time. The treatment sessions run for approximately two hours.

Walter can be seen at 19 Cosby Avenue in Amherst MA

Pending approval, his first appointment will be on Friday December 29th at 1:30 PM with future appointments to be scheduled at that time.

Sincerely,

Verena J. Smith, Lic. Ac. Dipl. Ac (NCCAOM)
